

Little house, purpose

Self-managed
Green Assets

Problem

Financial and non financial services
do not reach and are available
to all the population

Solution

Your Self managed green Assets
house, pets, garden

Self Investment, solution

- use your house as investment,
stock it.
- while you live in your house you are
investing it!

Self collateral, solution

Self Loans

- use your house as collateral to loan yourself money.
- Your own managed loan, pay as you want and can.

Self Futures, solution

- use your house to invest in futures
- Your own managed investment in green futures

Or invest in your future house.

Insurance, Rent, or Buy, solution

Rent or buy your house, or orchard.

Or your land to produce food,
or set a nature reserve

Insurance your pets, family or house

Build green, solution

Increase the value of your house by
adding green technologies, or build it
with green materials

AI support

AI chat to help you be stronger, be
happy, focused,
caring your green assets

you will be better adapted
to changes in the Global Economy

Your Green Assets

Why now?
“There is no other time
more real than the
present”
-Alberto Curiel
